(Address)

Dear Sir,

Please I beg you then please I want to make perfectly clear that no one has more respect for the United States and for our soldiers more, many of whom are sincerely dedicated to what they see is the best way to defend the country we all love. It is because of that love that I write this letter.

Also, I want it to be equally clear that I am not a seer, if misguided crackpot.

On the night of the 11th day of January 1966 at 2 AM I looked out of my window here at Lexington and saw what appeared to be 3 flying saucers with 13 circles of a purple color with 1 eye and two wings apiece flying all round the top of the Hospital. Well, I just stood there for a couple of minutes looking at these things from outer space and at the same time when I lit a cigarette and in a flash they were gone. I think maybe the light

(over)

from the match scared them.

Well, again about 3 am on this same night there appeared 1 saucer and one of these beings who talk to me that came out of the saucer said that he would fly me away from here just as soon as I got a couple of wings and learned how to speak the language of the universe, but you see I am kind of scared to grow any wings, and learn the language because I don't think I want to break their secret.

I thought maybe I should tell you about this, so you could come down here to investigate it and maybe take a few pictures of them.

Sincerely yours,

[REDACTED]
